

FUTURE  ORGANIC PVT. LTD.

SINCE
2002

मजबूत बंधन रिश्तों का

**India's Leading Adhesive Brand in
Modular Furniture, Writing Board & Paper Bag Segments**

COMPANY PROFILE

Future Organic Pvt. Ltd. is founded by people having rich experience in sales, marketing and production of adhesives and paints. Their track record is strewn with a string of laudable achievements and their strong trade relations enable them to introduce the TUSKbond range of quality wood adhesives in 2002. Over a period of time, the consistent quality of TUSKbond has made it a leading adhesive brand in India's Modular Furniture/Kitchen, Writing Board & Paper Bag segments.

Apart from the comprehensive range, our R&D is competitive enough to develop customized products for diverse applications.

Our goal is to be a leader in our chosen product areas while maintaining the highest level of business ethics and technological innovations.

WHY CHOOSE TUSKBOND

TUSKbond adhesives are manufactured with stringent quality controls to ensure batch to batch consistency and special care is taken at every step to make the product perfectly attuned to the Indian conditions. Total quality enshrined in all operations combined with excellent service and competitive prices.

TUSKbond range of adhesives are vinyl acetate monomer (VAM) based co-polymers and perhaps India's only wood adhesive brand with an entire range made of copolymer dispersions. The special formulations enable TUSKbond Adhesives to give an edge over its competitors due to Excellent Bonding, Fast Setting, Fast Drying & Economical due to High Coverage.

TUSKbond adhesives are catering to various industries such as Furniture, Wooden & Paper Handicrafts, Writing Boards, Leather Boards, Sewing Machine Table Tops, Prefabricated Structures (Porta Cabins), Postforming / Hot Press / Hot Roller applications in making Modular Furniture & Kitchens, Speaker Columns, Sports, Paper Bags, Duplex/Mono Cartons, Packaging, Book Binding and various other domestic & industrial applications.

So go ahead and experience the power of TUSKbond...

PRODUCTS RANGE

TUSKbond JMD D3 **Waterproof Wood Glue**

JMD D3 is for an endless array of applications, to suit varying temperature, humidity and weather conditions, indoors and outdoors. TUSKbond JMD D3, a copolymer dispersion with high solids & cross linking polymer is boiling water resistant, fast setting, fast drying, specially formulated for edge to edge hardwood bonding, postforming, hot pressing, parquet flooring and for all tuff applications. TUSKbond JMD D3 is very economical due to its high coverage capacity. Indigenously developed with Japanese knowhow, TUSKbond JMD is D3 bonding quality as per DIN EN 204 norms and is qualitative enough to compete with global challenges.

So go ahead and experience the power of TUSKbond JMD D3 – of strong, durable bond that weathers the extremes!

JMD D3 is available in a 50 kg pack only.

TUSKbond Carpenter's PRIDE **Water Resistant Wood Adhesive**

A premium quality VAM based copolymer dispersion with D3 contents. High solids gives excellent resistance to water, fast setting, excellent bond strength & high coverage. Specially formulated for modular furniture industries where laminates pasting & pressing are done manually or with hot & cold press. It is ideal for postforming, wooden handicrafts, furniture & various other domestic/industrial applications.

Carpenter's PRIDE surpasses the ISI specifications IS : 4835.

Carpenter's PRIDE is available in 50 kg, 20 kg, 10 kg, 5 kg, 2 kg & 1 kg packs.

TUSKbond POWERLOK **All Weather Wood Adhesive**

A premium quality VAM based copolymer dispersion with D3 contents gives excellent resistance to water, fast setting, excellent bond strength & high coverage. Specially formulated for modular furniture industries where laminates pasting & pressing are done manually. It is ideal for wooden handicrafts, furniture & various other domestic/industrial applications.

POWERLOK surpasses the ISI specifications IS : 4835.

POWERLOK is available in a 50 kg pack only.

TUSKbond EXCEL **Carpenter's Special Adhesive**

VAM based copolymer dispersion formulated with D3 contents which has increased its water resistance capability along with superior bond strength, fast drying & high coverage. Specially formulated for modular furniture industries where laminates pasting & pressing are done manually. TUSKbond EXCEL is user friendly adhesive recommended for laminate pasting, wood joinery in furniture industries & for various other industrial applications.

EXCEL is available in a 50 kg pack only.

PRODUCTS RANGE

TUSKbond HITACK PVC To Wood Adhesive

EVA based copolymer dispersion specially formulated for bonding soft and semi-rigid PVC substrate to wood, particle board, MDF and other wood substitutes. TUSKbond HITACK is high solids, fast setting with good resistance to humidity, widely used in manufacturing speaker columns & in PVC Tape / edge banding applications. The product has excellent results and is economical too in fixing laminates, acrylic sheets to ply board / MDF / PVC & WPC Board, PVC tiles on floors, etc. It is also used to fix cloth on plastic to make designer lamp shades. HITACK has versatile use in handicraft industries also.

TUSKbond HITACK works well with single side application for most of the applications. Two side application is recommended for highly porous surfaces & instant setting. TUSKbond HITACK has an edge over rubber adhesives in Laminate to ply / MDF pasting applications.

HITACK is available in 20 kg, 5 kg, 1 kg & 250 gm packs

TUSKbond GOLD Premium Quality Wood Adhesive

A premium quality VAM based copolymer dispersion with High Solids and water repellent polymers gives excellent resistance to water, fast setting, excellent bond strength & excellent coverage. Specially formulated for handicraft & furniture industry and used in hardwood joinery, vertical, curved & horizontal pressing of laminates and to those applications where other adhesives under perform.

TUSKbond GOLD surpasses the ISI specifications IS : 4835.

TUSKbond GOLD is carpenters' delight and is used by the people who believes in quality.

GOLD is available in 50 kg, 20 kg, 10 kg, 5 kg & 1 kg packs.

TUSKbond WONDER The Master Craftsman Adhesive

A premium quality VAM based copolymer dispersion with excellent bond strength, fast Setting & high coverage.

The versatile TUSKbond WONDER is user friendly adhesive recommended for horizontal & vertical laminations, hard & soft wood bonding and for various household & industrial applications.

TUSKbond WONDER surpasses the ISI specifications IS : 4835.

WONDER is available in 50 kg & 20 kg packs.

TUSKbond SHAKTICOL CSA Synthetic Resin Adhesive

VAM based copolymer dispersion is a medium quality adhesive with superior bond strength and very economical due to its high coverage capacity. SHAKTICOL CSA is user friendly adhesive recommended for laminate pasting, wood joinery in furniture industries & for various other industrial applications.

SHAKTICOL CSA is available in a 50 kg pack only.

PRODUCTS RANGE

TUSKbond ECO

The Complete Adhesive

ECO is ready to use VAM based copolymer dispersion, suitable for both laminate / ply pasting and wood joinery in low cost furniture making. The ECO is economical and value for money adhesive.

ECO is available in 50 kg, 20 kg, 5 kg & 1 kg packs

TUSKbond SPIDER CPA

Corner Pasting Adhesive

SPIDER is a water based low viscous, high solids EVA copolymer dispersion with excellent bond strength and high coverage. The versatile TUSKbond SPIDER CPA is a user friendly adhesive recommended for making duplex cartons with laminated to non-laminated & varnished to non-varnished surfaces either manually or through wheel / nozzle / roller machine applications. Besides duplex cartons it is widely used in making paper carry bags in corner / side pasting, folded base & handle pasting applications. It is also used in making window envelopes, tags, diaries, packaging, paper handicrafts, etc.

Compliances : The ingredients used in TUSKbond SPIDER CPA complies to compositional requirements of US FDA, CFR Title 21, Sec. 175.105.

SPIDER CPA is available in a 50 kg pack only.

TUSKbond STAR

Multi Purpose Adhesive

VAM based copolymer dispersion is a special quality adhesive, formulated for paper bag industries in pasting paper bags bottom through machine/manual applications. The versatile STAR is also used in paper handicrafts, diary, packaging, & in various other industrial applications.

Compliances : The ingredients used in TUSKbond STAR complies to compositional requirements of US FDA, CFR Title 21, Sec. 175.105.

STAR is available in a 50 kg pack only.

TUSKbond DHAMAAL

Multi Purpose Adhesive

Specially formulated for paper bag industries in bottom pasting / handle pasting either manually or through machine applications. Also used in packaging, diaries, paper handicraft industries. TUSKbond DHAMAAL is very economical due to its high coverage capacity.

Compliances : The ingredients used in TUSKbond DHAMAAL complies to compositional requirements of US FDA, CFR Title 21, Sec. 175.10

DHAMAAL is available in a 50 kg pack only.
